Installation DVD

For Intel-compatible, 64-bit computers

Please ensure that your computer is configured to boot from the DVD drive, insert the disc into the DVD drive, and restart your computer.

The installer will quickly guide you through the installation process, asking a few questions about you and your computer as you go.

For futher assistance, visit http://help.fedoraproject.org

MINIMUM REQUIREMENTS: 400 MHz 64-bit Intel-compatible processor with 768 MB RAM.
Installation of the complete package set can occupy over 9 GB of hard drive space.

A complete machine-readable copy of the source code corresponding to portions of the accompanying Fedora 16 release is available upon request. This offer is valid to anyone in receipt of this information and shall expire three years following the date of the final distribution of this release by Red Hat, Inc.

To obtain such source code, send a check or money order in the amount of US $10.00 to:

Fedora Legal c/o Red Hat, Inc. | 1801 Varsity Drive | Raleigh, NC 27606 USA
Please write "source for Fedora 16" in the memo line of your payment.

You may also access a copy of this source code at:
http://dl.fedoraproject.org/pub/fedora/linux/releases/16/Everything/source/
